The Problem

- There has been a lot of confusion around players with items, guns and balances given to characters. This website's purpose is to make it easy for players to be informed on current updates to ensure a smooth experience with gameplay and have more knowledge on the companies they are investing in.

The Solution

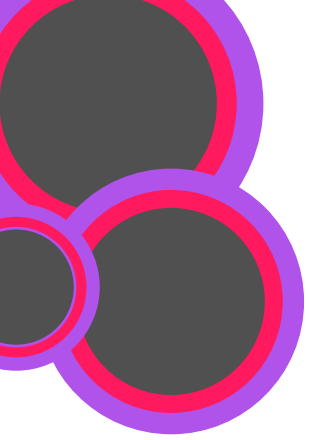

- Introduction

This is an informational gaming website themed around SMITE, APEX and FORTNITE. Elite

Gaming informs players on game updates, minimum requirements for gameplay and information around battle

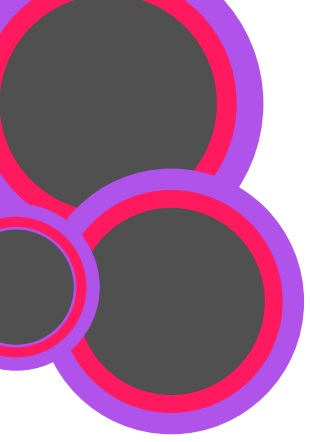

passes.

Design process

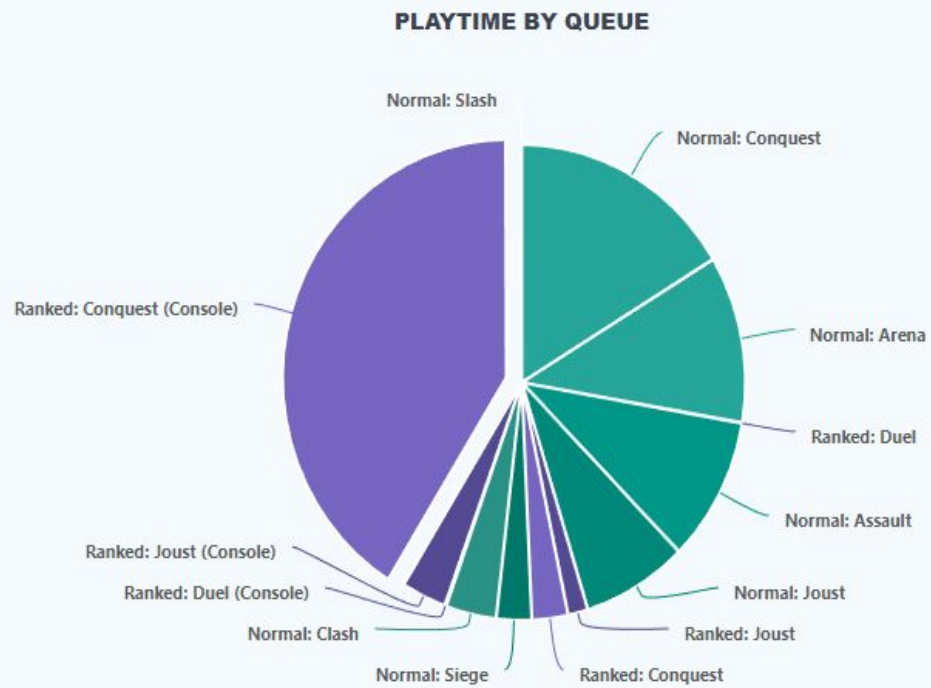

- o Sketching with white board
- o Sitemaps
- o Started with a mockup using Figma, then researched Apex Legends, Fortnite, and Smite's latest update and battle passes.
- o Use Trello to plan each days work for the website.
- o

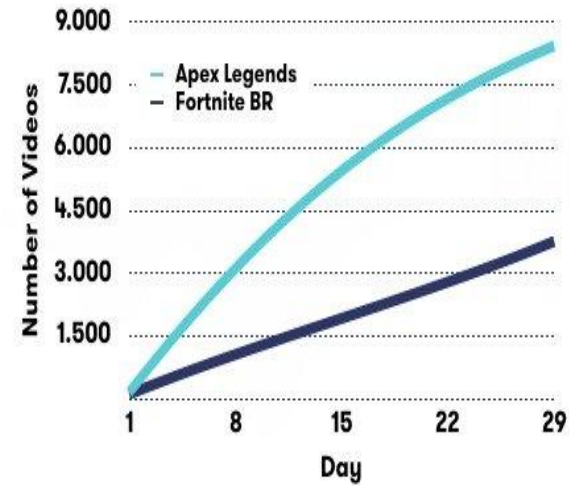

Project Plan and Timeline

- o Trello to manage our responsibilities
- o White Board
- o Past projects and creating resume
- o Time Management

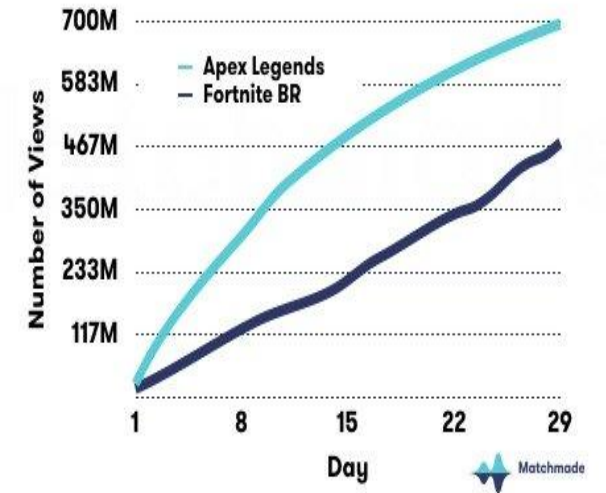

Research

Video Count on YouTube in Their First 30 Days

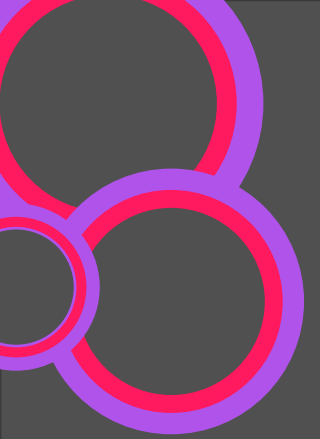

Viewership on YouTube in Their First 30 Days
